Shoe Bargains at Proud's

We keep in close touch with the shoe market and as a result have been able to secure some really marvelous bargains which our customers will get the benefit of, as these shoes were bought at the old price. Buy now and buy enough to last for sometime as low prices are going to be a thing of the past in the near future.

At a recent shoe manufacturers convention in Toledo, it was said that if the war continued another year, leather shoes would be a thing of the past, as the leather for shoes is imported and that the shoes would be of canvas, rubber or of wood.
